EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation.)

Background to the Statutory Instrument

The Government approved the establishment of a Ukraine Credit Guarantee Scheme on 27th of July 2022, to facilitate participating finance providers lending up to €1.2 billion to SMEs, primary producers and small mid-caps (i.e. companies under 500 employees).

The Credit Guarantee (Amendment) Bill 2022 completed its passage through the Oireachtas over the course of 9th to 16th November (Dáil) and 23rd to 30th November (Seanad), and was signed into law by Uachtaráin na hÉireann on 2nd December 2022 last, as Act No. 38 of 2022.

The Ukraine Credit Guarantee Scheme has been developed to adhere to the provisions of the European Commission’s “Temporary Crisis Framework for State Aid measures to support the economy following the aggression against Ukraine by Russia”. This allows for such schemes to support the needs of enterprises responding to the economic shock caused by the Ukraine crisis. The Temporary Crisis Framework for State aid measures allows for the relaxation of certain State aid rules for a limited time to enable EU Member States to support enterprises in their country. The Temporary Crisis Framework is currently due to expire on 31 December 2023.

The Scheme will ensure finance providers are incentivised to support businesses which require additional liquidity in order to respond to the changed economic landscape and the need to adapt and change business practises in response.

In order to remain within the terms of the Temporary Crisis Framework, all lending under the Temporary Crisis Framework must be agreed before 31 December 2023, or such later date as the Temporary Crisis Framework may be extended to.

This S.I. establishes the Scheme to operationalise the powers of the Minister under the Credit Guarantee Act 2012 (as amended).

Overview of the Scheme

This is a scheme for SMEs, Primary Producers and small Mid-Caps. SMEs are expected to be the main beneficiaries. In order to qualify for the Scheme, the borrower's business must be viable, the credit must be new (not for the purposes of refinancing existing indebtedness) and the borrower will have to declare that its costs have increased by a minimum of 10% on its 2020 figures and that the credit is being sought specifically due to economic difficulties resulting from the aggression against Ukraine by Russia.

The current standard facility size for the Ukraine Credit Guarantee Scheme will be €10,000 to €1,000,000.

The qualifying enterprises will apply to the Strategic Banking Corporation of Ireland (SBCI) for confirmation regarding eligibility to participate in the scheme and thereafter will apply as normal to the finance providers for financial products, such as overdrafts or term loans. The finance providers will apply their normal underwriting decision-making process to the applications for financial products.

The qualifying enterprises will pay a premium to the State for the guarantee. The State is required to charge this under the terms of the European Commission's Temporary Crisis Framework for State Aid measures and the Credit Guarantee Act 2012 (as amended).

Finance providers are required to provide these financial products at reduced interest rates to the qualifying enterprises, to take account of the reduced risk of the finance providers in the case of any default arising. This will further support businesses to access essential liquidity as a result of the Ukraine crisis.

The Scheme has been designed to ensure it can be distributed and accessed as efficiently as possible. However, the European Commission's Temporary Crisis Framework for State Aid Measures and the De Minimis Regime, where applicable, must be adhered to in order to take advantage of the derogations and increased State aid limits within the Scheme.

The Scheme will be operated by the SBCI. The SBCI will also review prospective finance providers and make a recommendation to the Minister regarding their participation in the Scheme.

Components of the S.I.

The S.I begins with the formal Citation for the Scheme and Interpretations and Definitions applicable for the Scheme.

It then consists of two substantive parts;

Part two sets out an overview of the Ukraine Credit Guarantee Scheme. This includes:

- The policy objectives of the Scheme to facilitate additional lending to businesses in response to the economic difficulties caused by aggression in Ukraine by Russia.
- The powers of the Minister to grant a guarantee subject to the conditions specified in section 4 and section 4B of the Credit Guarantee Act 2012 (as amended).
- The facility and guarantee term applicable under the Scheme.
- The nominal values of financial products that are allowable under the Scheme.
- The nature of finance agreements that are considered as eligible credit under the Scheme.
- The requirement to charge a premium as part of a credit agreement under the Scheme to a participating enterprise availing of the Scheme.

- The application of a pricing discount, which participating finance providers are required to include on qualifying finance agreements under the Scheme in order to pass on the financial benefit of the State guarantee.
- Support under this measure constitutes State aid within the meaning of Article 107(1) TFEU. The Commission considers that it is compatible pursuant to Article 107(3)(b) of the TFEU since it meets all the relevant conditions of the Temporary Crisis Framework. On expiry of the Temporary Crisis Framework (to the extent the Temporary Crisis Framework is not extended), assistance through this Scheme will be provided in reliance on the De Minimis Regime.
- Confirmation of compliance with data protection law.

Part three describes the process of approval of finance providers to this Scheme and refers to the participating finance provider's legal agreement.
