EXPLANATORY NOTE

(This note is not part of the instrument and does not purport to be a legal interpretation)

The Regulations amend the Safety, Health and Welfare at Work (General Application) Regulations 2007 to 2023, to ensure that an employer takes appropriate actions, in accordance with the relevant Health and Safety Authority code of practice, to provide sufficient fresh air is circulating in enclosed spaces within a place of work.

The Regulations also provide for the introduction of the concept of a “relevant code of practice” under the General Application Regulations. This will facilitate the introduction of other codes of practice to guide employers in complying with other sections of the General Application Regulations.
