(2) These Regulations come into operation on 31 March 2025.

2. The Air Pollution Act 1987 (Solid Fuels) Regulations 2022, Regulation 5(4) is amended -

By substituting for Regulation 5(4)(b) the following:

(b) subject to a market assessment, with effect from 1 September 2030, have sulphur content less than 1% by weight on a dry ash-free basis.

EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation.)

The original regulation proposed that coal products and manufactured solid fuels, including manufactured part biomass products, must have sulphur content less than 1% by weight on a dry ash-free basis from the 1st of September 2025, subject to a market assessment.

Following the assessment, it was determined that it was not appropriate to reduce the sulphur level at this point and instead it should be re-assessed before September 2030. as such this provision is being amended in this regulation.
